

Contrast Media And Related Consumables

Contract duration: 01/06/2016 – 31/05/2019
(Plus option to extend by a further 12 months)

North of England
Commercial Procurement Collaborative

Background to framework

The NOE CPC Contrast Media Framework Agreement expired on 31st May 2016. Having proved very successful and popular amongst our members, NOE CPC has created a new agreement with the support of the Yorkshire Pharmacy Consortia and NOE CPC Members.

Contrast media (or agent) is a substance used to enhance the contrast of structures or fluids within the body in medical imaging.

There are many challenges facing today's healthcare professionals, with specific focus on increasing revenues, decreasing costs, and improving the overall healthcare management process.

With tender specifications approved by directors of pharmacy prior to the tender process, NHS CPC's Contrast Media Framework contains a comprehensive portfolio of products, consumables and evidence-based diagnostic imaging solutions which can contribute to resolving healthcare issues, benefiting both trusts and patients alike.

With a comprehensive list of medias available, the framework is able to cover all clinical requirements at market competitive prices.

Benefits for your trust

Value for money

The competitive tender process ensures that you will be buying goods at a competitive market rate.

Market testing

In undertaking this contract NOE CPC robustly market tested this area.

A 'one-stop-shop' solution

NOE CPC stakeholders have access to all suppliers on the framework and can take advantage of this at any time during the life of the contract.

Cost saving opportunities

NOE CPC stakeholders are able to take advantage of preferential pricing based on annual spend and annual fluid use, therefore irrespective of size, all organisations can benefit.

Contract management

Ongoing central support from NOE CPC will be provided to all involved stakeholders throughout the life of this contract.

Suppliers

- Bayer Plc
- Bracco UK Ltd
- GE Healthcare Ltd
