

# Dental, Orthodontic and Related Consumables

North of England  
Commercial Procurement Collaborative

Contract duration: | 25/11/2014–24/11/2018

## Background

NOE CPC had an historic Dental Consumable framework which was due to end 31<sup>st</sup> November 2014. The existing framework which had been extended to cover trusts within the Yorkshire and the Humber region appeared to have worked extremely well. Trusts had expressed a desire for the replacement framework contract to be put in place from the end of the current contract which would work on a similar basis. The replacement framework would also include an additional lot to cover Orthodontic consumables – due to the complex nature and variety; it was deemed that this lot would not be suited to a sole award.

## Lots included

**Lot 1:** Dental Consumables & Associated Products

**Lot 2:** Orthodontic Consumables & Associated Products

## Framework covers

- Anaesthetics and pharmaceuticals
- Rotary instruments
- Endotics
- Impression materials
