

# Hearing Aid Batteries and Battery Accessories

Contract duration: 13/10/2014–12/10/2018

North of England  
Commercial Procurement Collaborative

## Background to framework

NOE CPC already has in place a framework for hearing aids and due to the popularity and benefits of this contract it was felt that a complementary Hearing Aid Battery framework should be facilitated.

All key items are covered and all of the market leading products are available via the framework. NOE CPC is now pro-actively managing the contract between stakeholders and suppliers.

## Benefits

The overall key requirement has been to establish a flexible, inclusive and responsive framework contract to provide solutions that address and support the Hearing Aid Battery needs of NOE CPC member trusts and their patients. A cost effective, quality driven service with increased productivity were central elements identified by a trusts' needs analysis.

- Fully EU compliant framework
- Innovative products and services
- Cash releasing savings
- Free delivery on standard orders
- Dedicated customer service
- Live reporting on expenditure
- Flexibility to meet fluctuating requirements
- Direct support from the Clinical Engagement and Procurement Nurse Manager (CEPNM)

## Suppliers

- Amble Electrical Distributors
